

Sustainability Policy Statement

CPS Building Services Ltd is committed to sustainability in all its forms and it is a core value to its business and the way in which it carries out its activities.

We aim to deliver products and services to our clients in the most sustainable manner by the following means (amongst others):

- The use of materials and products secured from sustainable sources with appropriate certification of their provenance.
- The minimisation of waste by recycling and or processing/segregation into reusable materials.
- The use of our extensive in-house company knowledge on the management of waste to reduce material deposited in landfill sites.
- The use of biodegradable hydraulic oils and similar initiatives to minimise pollution potential.
- The continuous training of staff in the principles and practice of sustainability.
- The adherence to and development of our ISO 14001:2015 accredited Environmental Management System.
- The continuous upgrading of our plant and equipment to ensure the most efficient engines are employed to minimise the carbon footprint of our activities.
- By assessing sub-contractors and suppliers on their environmental offerings and performance both at tender and delivery stages of a project.
- Ensure all employees adopt our core values of People, Planet and Profit into all our business activities in delivering projects and services to clients in the most efficient and sustainable way.

CPS Building Services Ltd Group of Directors are committed to the implementation of this policy and will seek regular feedback from staff and clients on the Group's performance in this key area of the business.
